INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/JP03/10116

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-15	YES
	Claims		NO
Inventive step (IS)	Claims	1-15	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-15	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

This International Preliminary Examination Report was created based on document 1.

Document 1. Shigeru YAMAGO et al., 'Organotellurium Compounds as Novel Initiators for Controlled/Living Radical Polymerizations'. Journal of the American Chemical Society, 27 March, 2002, Vol. 124, No.12, pages 2874 to 2875

The subject matter of claims 1-15 appears to be novel, to involve an inventive step, and to have industrial applicability.

Document 1 neither describes nor suggests using the chemical compounds represented by Formula (2) in the inventions of the present application (2), and thereby obtaining living radical polymers having narrower molecular mass distribution.
